## + DESIGN

The  
**ART COLLECTOR MAINE**  
Issue

**“Pablo Picasso said, ‘The purpose of art is washing the dust of daily life off our souls.’ We build homes for this same purpose, to create havens where people can rejuvenate their souls. The essence of this sculpture, *Tree of Life*, is a reflection of the landscaping and of the home—an invitation to relax and become part of the natural beauty of the changing scenery.”**

**—Shawn Douston, Douston Construction**

**ARCHITECT:** Whitten Architects
